

Mobile Developer, iOS (Internship)

Location: Old Street, London
Position: Part-time internship

UrbanThings have a unique opportunity for a mobile developer to work with our popular public transport apps, powering millions of journeys each week.

This is an opportunity to gain valuable experience on the inside of a small company that we're filling with incredible people. We have a global brand, successful products and, as one of the **#smallbiz100** we're certainly going places.

The position offers the chance to learn the latest in iOS / mobile development in a hands-on environment. You'll assist the lead iOS developer in implementing new features, maintaining the existing code base, including tracking and testing bugs and supporting our suite of apps.

You've experience with software development, ideally as part of your current academic course. You may have dabbled in iOS development; you might even have written your own apps, perhaps even published something on the App Store. Regardless, you have a genuine passion for mobile technology and the iOS platform. You have the ability to work well as part of a team and communicate effectively.

This is an exciting role combining hands-on experience and mentorship with bleeding-edge technology; you **will** be pestered to try out our latest phone or smartwatch app. We have sofas, music, regular free lunches and beers in the fridge but – above all – we have a place where we love building amazing, inspirational things. Come and join us!

Essential Skills

- Good understanding of Object Orientated Design patterns
- Good knowledge of at least one object orientated language (Java/C#/C++ etc)
- Self-driven, problem-solving attitude.
- Strong communication skills.

Desirable Skills

- Knowledge of Objective C and/or Swift
- Understanding of network APIs/RESTful APIs
- Understanding of GPS, mapping technologies and concepts
- Understanding of relational database models
- Strong interest in mobile UX/UI, with an eye for good design.
- Jira / Git

To apply, drop us an email at jobs@urbanthings.co and let us know a bit more about yourself - we'll get back to you with further details.
